I appeared to take cold so easily, hardly would I get rid of one until another consilies and grown was upon me. I continued to neglect myself until I was the victim of a bad case of catarra.

"The disease developed very rapidly and, despite all the various remedies and cures which I tried, grew worse and worse each day. My head was constantly stopped up and ached nearly all the time. There was a constant discharge from my nose, and my liawking and splitting was very distressing.

"To this was added a sever-stomach trouble brought on by my disease. My stomach would feel heavy and distressed after eating anything. My sleep was disturbed and fretful. I felt gloomy and despondent all the time, and was very irritable and nervous. I had at times a sharp pain around my heart, which added considerable to my suffering.

"I tried a great many remedies and mell-claes without any encouraging results, and had given up all hope of ever being benefitted, when I notleed some cases similar to mine which Drs. Copeland & Mansfield had cured. I concluded to try them at least, and accordingly placed myself uncer their care.

"I improved atmost from the first. The discharge from my nose has ceased, my head is clear and I have regatined my appetite; digestion good, no more pain around the heart, and I feel like a different person, and can say that Drs. Copeland & Mansfield had early the great my nose has ceased, my head is clear and I have regatined my appetite; digestion good, no more pain around the heart, and I feel like a different person, and can say that will gladly repeat my story."
